

# 2021 Annual Report

February 14, 2022

## Year in Review

2021 was again mostly a year of hibernation for Fertile Ground. Our board members have continued their work, mostly remotely, during the CoViD-19 pandemic, on community issues, racial injustice, poverty, indigenous sovereignty, and environmental and women's issues. We have continued to support other organizations through our fiscal sponsorship program. "Good Grief Network" graduated from our sponsorship this year and became a 501(c)3 organization. We are still sponsoring "Mountains and Waters Alliance" and began sponsoring "Viveros Farm," a non-profit, community oriented urban aquaponics, composting, and sustainability collective in the Bay Area, and supporting the U.S. fundraising efforts of "Rural Watch Africa." We provide these groups with support and 501c3 fiscal status, and in return take a small portion of their income as a processing fee.

## Financial Summary

### Income

- Fertile Ground donations and program income: \$20,130.76
